

Customized Student Support

In addition to our core advising programs, uAspire offers customized financial aid support tailored to meet students' needs and regional context. Our targeted interventions complement the services provided by school counselors and enhance staff capacity.

Help Desk

Students text their assigned help desk number anytime. A uAspire advisor texts back within 24 hours to help them complete the FAFSA and other financial aid steps over text, Zoom, or phone.

Advisor Meetings

Student meets with a uAspire advisor on Zoom to complete financial aid applications and get answers to questions about financial aid and paying for college.

Virtual Events

Live interactive webinars walk students and families through the financial aid process and applications, provide resources, and offer guidance.

“The helpdesk is remarkable. In such a short time, students have come to trust uAspire—going directly to them with questions—and we’re seeing the results in completed FAFSAs.”
